Necklace Van Cleef & Arpels

Creation from the Vintage Alhambra collection. Emblematic of Van Cleef & Arpels, the Alhambra collection has lent itself since 1968 to elegant interpretations, varying according to the materials used and the occasion. Among these interpretations is the Vintage Alhambra sautoir, featuring iridescent shades of grey mother-of-pearl. This material, so dear to the House, interacts here with the delicate reflections of pink gold and the sparkle of diamonds in a gentle combination of colours. True to the original aesthetic of the collection, the motifs are adorned with a delicate pearled outline, a signature of the Van Cleef & Arpels style.
